individuals, or class."

DEMPSY KNOCKS OUT MISKI.

Jack Dempsey, heavyweight champion of the world, demonstrated Monday (Labor Day) that he still retains the terrible punch that won him the title. He knocked out Billie Miske, of St. Paul, a fighter big and game as himself, in the third round af their 10-round match. Three hard smashes were sufficient to win him between $50,000 and $100,000, his fifty per cent share of the gate receipts.

At the start of the fight, his first in 14 months, Dempsey peeled off the same worn and patched red sweater that he wore when he knocked out Jess Willard. His face wore the same fighting frown, he danced about the ring with old time light footedness and finished up by taking the fight in the third round, just as he did at Toledo. The third round went one minute and thirteen seconds.

Miske went down three times in the iess than two and one half rounds of fighting. In the second he measured his length o nthe floor for the count of five. In the fatal third, driven to his corner under rain of lefts and rights to the stomach and chin, the challenger took the count of nine, and had just regained his feet, when Dempsey, carefully measuring his distance, ended the bout with a right hand punch to the chin.

WHY THE FARMER COMPLAINS.

With hogs bringing only $10 a hundredweight at the Chicago Stock yards, where in July last year the quotation was $23.60, and with wheat and flour at less than one-half the prices commanded before the decline began, the American farmer has a grievance which he naturally voices.

These sharp reductions in basic-food values ought to be reflected in the commodity markets everywhere but they are not. Most of the things the farmers buys are presented to him at war-time figures. The price of his products is cut in half, but if he were to purchase ham, bacon, lard or bread made possible by his toil, or clothing and household goods fabricated by working people whom he feeds, he would find that readjustment if visible at all is proceeding by very easy stages.

The farmer is justified in his complaints and should be heard. At the other end of the scale is the consumer, more submissive but equally a victim. The middleman will not yield wisely if he yields too

HILLSBORO, Mar. 31st, 1884.

Editor Greenbrier Independent:

We are having beautiful weather just now, and business is brightening up with the approach of spring.

There is still considerable sickness throughout our neighborhood. Two of Mr. J. R. Marshall's children are afflicted with something very much like scarlet fever.

To-day a little child of Mr. Peter Overholt's fell backward into a tub of almost boiling water, and was burned so badly that its life is despaired of. All the skin has come off of the back and partly off of the limbs of the little sufferer—presenting a distressing spectacle. [We have since learned that the little child died on the night following the day of the accident.—*Ed.*]

On the 28th inst., a little girl of Mr. Geo. Keys, living near Buckeye Cove, was attacked by croup, and died from the effects of it in three hours.

Mr. A. M. Pullin, postmaster at Mount Murphy, has resigned, and all mail for that office will be sent to this place, (Academy.) From what we have learned it is probable that the vacancy left by Mr. Pullin will be filled soon.

Rev. T. H. Lacy, D. D., of the Episcopal Church, filled the Presbyterian pulpit at this place on the 27th inst. His discourse was a very interesting one, and highly appreciated by all present.

Mr. R. M. Powers, of Richmond, Va., and Mr. J. Thompson, of Westminster, Md., are in town to-day buying horses.

Messrs. A. R. Kennison and James Burnside while out chopping recently found five raccoons in a hollow tree. They succeeded in dispatching all of them, and resumed their work, singing "Raccoon up a gum tree."

JENKINS.

HILLSBORO, Nov. 11th, 1884.

Editor Greenbrier Independent:

We still rejoice here over the election of Cleveland and Hendricks — the nation's choice. For twenty-four long years we have lived under Republican administration, and on last Saturday evening, when we heard that the fetters that had held us so long had been broken and that Cleveland and Hendricks had been chosen by 219 electoral votes and a popular majority of 350,000 to rule this glorious Republic for the next four years, our joy knew no bounds. The large bell at the Presbyterian church was rung, and men and boys poured in from all quarters and hailed with delight the nation's deliverance from ruin and disgrace. In a remarkably short time our town was brightly illuminated and a procession of flaming torches moved from street to street, headed by a beautiful banner bearing the inscription, "Cleveland and Reform." A large crowd followed the glistening banner and cheered until they were hoarse. Amid the ringing of bells and roaring of guns could be heard the cries of "Hurrah for Cleveland!" "The nation's saved!" etc. The enthusiastic crowd now moved to the outskirts of the town, where great bonfires lighted up the heavens, giving to the scene a grand and imposing effect. Different kinds of fireworks were indulged in by the enthusiastic youngsters. In short, it was a grand jubilee, and men participated in it who seldom take part in political demonstrations of any kind.

We are having beautiful weather now, and our farmers are busily engaged in husking corn and getting in winter supplies of wood.

We have two interesting schools at this place—one managed by Miss Kate Cabell, of Alderson, and the other by Miss Maud Patrick, of Lewisburg.

The Rev. Dr. T. H. Lacy, of the Episcopal Church of your town, delivered a very interesting discourse in our Hillsboro Presbyterian Church last evening.

Mr. E. H. Moore, living near Sunset, this county, will go to Florida about the last of this month. He expects to make that State his future home.

The large grist mill of Mr. Isaac McNeil, which has been undergoing repairs, will be put in operation next week. This mill, in point of speed and quality, will do nearly double the amount of work it has done heretofore.

Letter from Hillsboro.

I again take up the quill, and will occasionally send you the news items from here, when I have anything to communicate that I think will be of interest to the many readers of the INDEPENDENT.

As I was returning from Missouri I stopped in the Kanawha Valley, and was much surprised at the magnitude of the different Coal works there—the many improvements, and the general business air that seemed to pervade everything, notwithstanding the depression that has been so detrimental to business in other places.

In Greenbrier and Pocahontas I also noted many improvements, that should enhance the value of property, and, if continued, would invite capitalists to settle among us, who would help develope the riches that everywhere abound.

Your correspondent has been reliably informed that a Company of Pennsylvania capitalists have secured a large quantity of White pine timber in this county, situated about ten miles from here, in the neighborhood of Mr. Allen Coulters, on what is known as Laurel Run. Early in the spring they will commence the construction of a small narrow gauge railway, which will begin somewhere in the timber section, and follow Laurel Run to the Greenbrier river. The length of the road will be about four miles. By this means they will convey the logs to the river, and then float them in the usual way to Rouceverte.

As I was returning from Missouri I stopped in the Kanawha Valley, and was much surprised at the magnitude of the different Coal works there—the many improvements, and the general business air that seemed to pervade everything, notwithstanding the depression that has been so detrimental to business in other places.

In Greenbrier and Pocahontas I also noted many improvements, that should enhance the value of property, and, if continued, would invite capitalists to settle among us, who would help develope the riches that everywhere abound.

Your correspondent has been reliably informed that a Company of Pennsylvania capitalists have secured a large quantity of White pine timber in this county, situated about ten miles from here, in the neighborhood of Mr. Allen Coulters, on what is known as Laurel Run. Early in the spring they will commence the construction of a small narrow gauge railway, which will begin somewhere in the timber section, and follow Laurel Run to the Greenbrier river. The length of the road will be about four miles. By this means they will convey the logs to the river, and then float them in the usual way to Ronceverte.

Game seems to be pretty plentiful in the mountains near here. Several deer have been killed lately, and if the pheasants, rabbits, and partridges continue to come in at the present rate, they will soon be as scarce as Mahoneism in Virginia.

Mr. Preston S. Clark, of this place, while bringing in a flock of sheep from his mountain range last week, let them eat some laurel, from the effects of which eight of them have died.

A son of Mr. F. M. Pritts, aged about 12 years, met with a painful, and rather singular accident a few days ago. He was helping to separate some sheep, when two of them became frightened, and ran against him with such force as to break his right leg just below the knee. Dr. C. P. Bryan set the broken limb, and reports him doing well.

Rev. L. H. Graybill, assisted by Rev. David Rush, is holding a protracted meeting at this place, with promises of a great revival. At the present writing there has been but one confession. There are seven penitents at the altar.

Mrs. J. Weed has returned from a visit to her daughter, Mrs. Sprague, of Rhode Island.

Letter from Millsboro.

All day Sunday last the rain poured down in torrents, and the streams in this vicinity are considerably swolen, but no damage is apprehended from them.

The meeting which commenced in the Presbyterian church on the 11th inst. closed on Sunday evening last. Rev. David Sydenstricker, Pastor of the church, was assisted by Rev. William Miller, of Frankford. Considering the inclement weather, the meeting was well attended, and although there was but one accession to the church, impressions were made that cannot help but be productive of good results.

Rev. C. A. Brown and his brother, F. J. Brown, are teaching a very interesting school at this place. They are now making an effort to establish a graded school here, and it is to be hoped that their efforts will be crowned with success. In this advanced age the importance of a good education is apparent to all, and anyone without is doomed to mediocrity.

There is considerable sickness in this section. Mr. J. W. McNeil, who has been quite ill for some time, is still in a critical condition.

Mr. John Walton, living about ten miles from here, near Spring creek, met with a shocking accident on the 11th instant. He was getting wood, and after putting a large load on a sled he had for the purpose, he started home with it—he riding on the wood. While going around a rough, steep place in the road the sled turned over and a large heavy stick fell on his left leg half way between the ankle and knee, crushing it into a shapeless mass. Dr. J. A. Larew is attending him, and thinks that amputation of the limb will be necessary to save his life. Mr. Walton is near 70 years of age, and it is doubtful if he will recover from the shock.

On the 8th instant Moses Henderson, a colored man in the employ of Mr. F. A. Renick, met with a fatal accident. He was taking a load of hay to the barn, and was standing up on it driving, when a fore wheel of the wagon dropped into a ditch near the barn. The sudden lurching of the wagon caused him to lose his balance, and he fell, his head and shoulders striking the ground first. His neck was broken and he died almost instantly, without speaking.

Mr. H. A. Overholt and Mr. Albert Sharp will leave Thursday morning for Galveston, Texas, where they expect to remain through the winter.

The trade in furs promises to be very good this season, and trapping has commenced.—Mr. G. W. Clark has discovered that the opossum ranks next to the fox in point of cunning. While out looking after his "deadfalls" recently he saw a large opossum back up to one of them, curl his tail around the bait of fresh meat, and with a quick jerk land it with part of the trap-triggers safely on the outside.

JERKINS.

Special Notices.

BUY USEFUL Xmas Gifts at J. E. Bell's.

You will realize good prices for dressed Poultry if shipped from now until the Holidays, if shipped to John T. Powers, Richmond, Va.

"HELLO, Charley! another boy at your house?" "Oh, no; just getting a larger Engine to run our Mill." "Where did you buy it?" "Why, from Gus White, of course, where everybody buys."

county.

Capt. Alex. F. Mathews and Judge J. M. McWhorter are in Charleston this week.

Hillsboro Items.

Editor Greenbrier Independent:

A heavy rain is falling here this evening, and a rise of waters is expected. And Messrs. W. H. Overholt and C. W. Callison have a fine lot of Walnut lumber on the Greenbrier river, near Mr. Jas. Burnside's, that they expect to Raft to Ronceverte as soon as they have sufficient water.

Rev. W. E. Miller is holding a protracted meeting in the M. E. Church at this place. Considerable interest is manifested. Rev. David Bush, P. E., delivered two very able sermons on Sunday to large and attentive congregations.

Mrs. Spencer, an aged and respected lady, mother of Mr. G. W. Spencer, died of consumption at her home near here on the 19th instant.

On yesterday evening, between the hours of 6 and 7 o'clock, Mr. F. A. Renick was called from his fireside by the dread alarm of fire. Rushing from out his house he discovered that his large barn, two hundred yards distant, containing 15 head of fine blooded cows, 1 fine blooded bull, 2 calves, 21 tons of hay, 100 bushels of wheat, 600 dozen of oats, 1 threshing machine, 2 hay cutters, 2 cultivators, forks, rakes, etc., was in flames. He, with others, hastened to the burning building only to find that the devouring flames were beyond control. Access to the building was impossible, save by one door, which was overlooked in the excitement. All efforts to save anything in the building proved futile. The great light drew many of Mr. Renick's neighbors to the scene of the

of oats, 1 threshing machine, 2 hay cutters, 2 cultivators, forks, rakes, etc., was in flames. He, with others, hastened to the burning building only to find that the devouring flames were beyond control. Access to the building was impossible, save by one door, which was overlooked in the excitement. All efforts to save anything in the building proved futile. The great light drew many of Mr. Renick's neighbors to the scene of the fire, but they could do nothing but stand and hear, with aching hearts, the roaring flames, falling timbers and piteous moans of the cattle. Two out-buildings near by, containing machinery, saddles, harness, etc., were also burned. Most of the machinery was saved, but 5 sets of harness, 1 side-saddle, 3 men's saddles, check lines, and sundry articles were destroyed. A granary, in which a large quantity of grain was stored, was saved by Mr. Wallace Beard and G. W. Spencer, who deserve great credit for their well directed efforts. The total loss, as estimated by Mr. Renick, is near $3,000. It is thought that the fire was caused by incendiarism. No clue, however, to the guilty party or parties. Mr. Renick has the heart-felt sympathy of the entire community in his great misfortune.
